

AMS Instructor/Consultant Data Sheet

AMS 4608

This **Cisco and Security Certified Expert** has **17+ years** providing computer services in technical design implementation and management as well as known to be extremely technical and hands on as a consultant.

PRODUCT SKILLS & CERTIFICATIONS:

VC	Course	Course Description
CI	ACRC	Advanced Cisco Router
CI	BCMSN	Building Cisco Multi Layer Switched Networks
CI	BCRAN	Building Cisco Remote Access Networks
CI	BSCI	Building Scalable Cisco Internetworks
CI	CARCH	Designing Cisco Network Service Architecture
CI	CBCR	Configuring BGP on Cisco Routers
CI	CCATM	Cisco Campus ATM Solutions
CI	CCDA	Cisco Certified Design Associate Boot Camp
CI	CCDP	Cisco Certified Design Professional, BSCI, BCMSN, ARCH
CI	CCIE	Cisco Certified Internetworking Engineer
CI	CCIP	CCIP Track1, BSCI, QoS, BGP, MPLS
CI	CCNA	Cisco Certified Network Associate BootCamp
CI	CCNP	Cisco Certified Network Professional, BSCI, BCMSN, BCRAN, CIT
CI	CCSP1	CCSP Track 1, SECUR, CSPFA, CSIDS, CSVPN, CSI
CI	CCSP2	CCSP Track 2, DVS, DPS, NAC, HIPS
CI	CID	Cisco Internetwork Troubleshooting
CI	CIDNS	Cisco Designing Network Security
CI	CINSEC	Cisco Network Security
CI	CIT	Cisco Internetwork Troubleshooting Support
CI	CSIDS	Cisco Secure Intrusion Detection System
CI	CSPFA	Cisco Secure PIX Firewall Advanced
CI	CSSP	Cisco Systems Security Professional
CI	CSVPN	Cisco Secure Virtual Private Networks
CI	DPS	Cisco Designing Perimeter Security
CI	HIPS	Cisco Securing Hosts Using Cisco Security Agent
CI	ICND	Interconnecting Cisco Network Devices
CI	ICRC	Introduction to Cisco Router
CI	MCNS	Managing Cisco Network Security
CI	NAC	Cisco Network Administration Control
CI	SECUR	Securing Cisco IOS Networks
DB	MySQL	System Administration and Programming with MySQL
DB	SQL	System Admin and Tuning using MS SQL
EK	NETDEF	Network Defense and Counter Measures
EK	NETSEC	Network Security Fundamentals
IW	1OSS	Operating System Security
IW	2NSF	Network Security & Firewalls

IW	2SATA	Security Professional Series
IW	2SATA	Security Audit, Attacks & Threat Analysis
IW	5DMT	Design Methodology & Technology
IW	5OOAD	Oriented Analysis and Design
IW	PS2NSF	Network Security and Firewalls
OS	AIX	IBM AIX System Administration & Fundamentals Training
OS	HPUX	HP-UX System Administration & Fundamentals Training
OS	LINUX	Linux System Administration & Fundamentals Training
OS	LPII	LPI Level 1 Certification Training
OS	LPIII	LPI Level 2 Certification Training
OS	NETWAR	NetWare System Administration & Fundamentals Training
OS	NT	Microsoft Windows NT 4.0 System Administration & Fundamentals Training
OS	SUN	Sun Solaris System Administration & Fundamentals Training
OS	UNIX	UNIX System Administration & Fundamentals Training
OS	W2k	Microsoft Windows 2000 System Administration & Fundamentals Training
PG	APACHE	Administering Apache Web Server
PG	ATM	ATM Support and Program Training
PG	CFE	Certified Fraud Examiner
PG	CHECKP	CheckPoint Security Certification Training (CCSA, CCSE-+)
PG	CHKP12	Check Point Management I & II
PG	CHKPM2	Check Point Management II
PG	CHKPM3	Check Point NG Management III
PG	CHKPMI	Check Point Management I
PG	CHPCSI	Check Point Certified Security Instructor
PG	CISA	Certified Information Systems Auditor
PG	CISCO	CISCO Certification Training
PG	CISM	Certified Information System Manager
PG	CISSP	CISSP Certification Training
PG	CMPFOR	Computer Forensics Training
PG	EDIRECT	NetWare Directory Services Program Training
PG	EXCHNG	Training and Support for Microsoft Exchange Server
PG	FIREW	Advanced Firewall Troubleshooting and Training
PG	FORNC	Incident Response, Forensic Analysis and Discovery, EnCase
PG	HIPPAD	HIPPA Academy Certification: Admin
PG	HIPPSA	HIPPA Academy Certification: Security
PG	IIS	MS IIS Program Training
PG	IN310	Solaris and Microsoft Windows Network Integration
PG	INFOSE	National Security Agency's InfoSec Assessment and Evaluation Methodology
PG	ISA160	Introduction to System Crash Analysis
PG	ISA190	Beginning Crash Dump Analysis
PG	LPI101	Linux LPI 101 Certification Training
PG	LPI102	LPI 102 Program Training
PG	NETDEF	Network Defense and Counter Measures
PG	NETSEC	Network Security Fundamentals
PG	OPENV	HP OPEN VIEW Program Training
PG	PCNETF	PC & Network Forensics
PG	PERL	PERL Programming

PG	QATE	Quality Assurance Test Engineering
PG	SCNPCM	SCNP Network Defense and Counter Measures
PG	SECRTY	Security + Program Training
PG	SQL	Programming using MS SQL
PG	SUN	Sun Solaris Unix Programming
PG	TRP201	Tripwire for Servers 4.5
PG	TRP202	Tripwire for Servers 4.5 & Manager 4.5
PG	TRP203	Tripwire for Servers 4.5 & Manager 4.5
PG	TRP501	Tripwire for Network Devices 3.1
PG	TRPWR	Tripwire Program Certification

WORK EXPERIENCE:

Independent Consultant - Project Manager

1988 to Present

Utilize expertises in the delivery of designing, implementation, management and instruction of projects as listed below.

Information Security Program

- HIPAA information security program development, management and implementation.
- Security Architecture Development, Content Filtering, Access Management
- Systems Re-engineering, Network design, WAN Troubleshooting / Desktop and Network Support
- Project Management, Training, Presentations
- Microsoft / Novell 6.0 engineering support/ Intrusion Detection Deployment / Installing and securing Wireless networks
- Security Investigation, Data Forensics
- Business Continuity Planning /vulnerability Assessments
- Develop information security program for HIPAA security compliance. Policy and Procedure development and work flow integration. Develop and deploy IDS (Intrusion Detection System). Provide corporate security training
- Business Continuity Planning / Disaster Recovery using LDRPS 9.1 and Systems Architecture Design / Vulnerability Assessment IT Technologies

HIPAA Security Consultant

- HIPAA Security & Privacy Policy & Procedure
- Secure Network Architecture Design and Deployment
- Security Training and Awareness / Vulnerability assessments
- Intrusion Detection Design and Deployment along with Forensic Examination of Computer Systems

VP Technology and Chief Security Officer

- Internet Data Center – Hosting Facility Network Design Security Architecture Design and deployment
- SLA Management, Network Management design and deployment, IT management / Supporting HA Web Solutions
- Budget Management / Technology Planning
- Network Forensics / Security investigations.
- Daily 3 rd level support for network, firewall, W2k, Linux host issues
- Designed and maintained BGP routing configuration with multiple providers.
- Designed and deployed advanced denial of service protection for enterprise network. Designed and deployed network wide intrusion detection system with enterprise event correlation service.
- Managed staff of 15 engineers, Developed cost effective web hosting solutions.
- Daily support for Windows 2000 and Linux/BSD, supported IIS, apache web server, MSSQL and MySQL databases (e-commerce). As well as Policy and procedure development.
- Cisco Call Manager

Security Consulting

- Pre Sales Technical Consulting, Security Assessment, Penetration and Vulnerability Testing

- Security Architecture Design and Deployment, Network Architecture and Deployment
- Systems audit, Business Continuity Planning Projects using self developed tools and LDRPS
- IT budget Management ,Systems & Network Forensics
- Fraud Investigations / Vulnerability Assessments
- Facilitator Between “Empires”
- Firewall, IDS Deployment, Cisco Call Manager, AVVID deployments
- Network Engineering / Support / Wireless deployments
- Internal and contract fraud investigations.
- Policy and procedure development, IT business process reengineering,

Sr. Network Analyst - Buenos Aires, Argentina

- Business Continuity Planning, IT Training, Technology Design and Deployment
- IT Systems Auditing
- IT budget planning
- Global deployment of Novell Netware 4.11 on 700 servers (77,000 users) in 100 countries.
- Project management for global team of engineers speaking multiple languages.
- Security auditing of global directory with Audit ware.
- Software distribution for automated patch and software distribution.
- Daily 3rd level engineering support on NT & Netware.
- Develop and deploy enterprise backup and recover solution.
- Policy & Procedure development. Worked with diverse cultures and beliefs

Information Security Analyst

- Incident Response planning, Business Continuity Planning
- Security Monitoring and Investigation, Security Planning, Security Training, Security Review
- Policy and Procedure Development, Vulnerability and Penetration Testing
- Systems and Network Forensics, IT Audits / Fraud & Security Investigations
- Security training to 100 globally diverse security administrators located in 57 countries.
- Develop security architecture for global enterprise, Maintain ANS firewall for 20,000 users.
- Site security assessments. Solaris Unix support and configuration.
- Develop baseline NT and Solaris security configurations.

Network Engineer

- Technology Migrations OS/2 - Novell Migration
- Business Continuity Planning
- RS-6000 support (AIX), HP open view deployment, Deploy new network architecture based on Synoptics hardware
- Designed and implemented Tricord and Netframe super server technology to consolidate multiple servers.
- Policy & Procedure development

Systems Engineer Consult

- Technology Implementation, Security & Penetration Testing
- Network Architecture and Implementation
- Risk Analysis, IT Systems Audits, Business Continuity Planning
- Systems analysis and technology solutions design and deployment. D
- Deployment of routers, switches, Linux, Solaris, AIX, NT, Netware.
- System Management design with HP Open View, System troubleshooting and problem solving, site reviews as well as Policy and procedure development, Security Architectures

Network Engineer

- QA Testing, Developing of Token Ring and Ethernet Devices and develop validation test and regression scenarios, Maintain Interoperability Environment in Intel Super Lab. Publish Test Results to industry publications
- Developed Intel Token Ring and 100 MB Ethernet cards based on Intel chip set. Performed software regression testing, wrote stress code to test integrity of software drivers. Performed Microsoft and Novell driver certification test.

Technical Service Manager

- Product Development and Marketing, Budget Management & Advertising

- Technology Design and Deployment : Worked with startup computer manufacturing companies to expand market in the US northwest corridor providing engineering, marketing and sales support
- Prepared responses to RFP's, Presentations to customer executive management on proposed technology solutions.
- Responsible for P&L, Management of sales force and engineering department., management for large-scale system migration and deployments.
- Policy development, operations procedure development.

Network Administrator

System Administration, Business Continuity Planning, Software Development

- Brought computer automation to small business to maintain inventory and track job costing.
- Developed custom software applications for HVAC industry.

IT Technologies

Cisco AGS OS/2 Linux Firewalls WebSense
 Cisco 600 NT 3.1- 2000 Checkpoint 3.0 - NG AppDetective
 Cisco 5513 DOS 2.0 - 7.0 Raptor PentaSafe
 Cisco 6509 Novell 2.11-Novell 5.1 Gauntlet RainWall /stonebeat
 Cisco 2500 Linux Redhat 1.0 - 7.2 Netscreen RadWare
 Cisco 4500 HP/UX 9-11.0 ANX Firewall Forensics
 Cisco 7000 Solaris 2.0 - 2.7 Netranger NetIQ
 Cisco 7200 SQL 7.0 - 2000 Etrusion Cisco VPN 3000
 Cisco 7500 HP Openview ISS IPSEC
 Bay Networks Exchange 5.0 - 2000 CyberCop WebTrends

Cascade Advanced – Network Administrator

1986 to 1989

Store Manager For Software Rental Franchise responsibilities included: Built Custom Computers for Customers
 Built customer networks with Novell, Lantastic and Grapevine.

- Introduced hardware sales and repair, Repaired computers, printers and accessories

US Military Worldwide - Law Enforcement K-9 Patrol Officer

1983 to 1987

- K-9 Narcotics and Explosives Detection
- Law Enforcement Patrol Duties (Narcotics/Explosives)

Executed search warrants and performed arrest , Funds escorts and executive protection duty. Narcotics investigations and seizures.

EDUCATION:

National Security Agency Infosec Assessment Certification (**NSA IAM Certification**)
Certified Information System Manager (**CISM**)
Certified Fraud Examiner (**CFE**)
CISSP, CISA, CCNA, CCNP, CCSP, CCDA, CCDP, CCIE, CCP and ISSEP
Cisco Certified Wireless Specialist and Cisco Pix Firewall Certified
Cisco Certified Telephony Specialist,
Raptor Firewall Certified
Check Point Firewall Certified
ICSA Security Certification
EnCase Forensic Examiner Trained
Keane Project Manager Training
Vinca Certified Engineer

To Hire This Instructor, Please Call 800-798-3901
